The wellbeing of civilization rests upon the realms of family. The foundation of family is marriage. In Islam, marriage is a lawful agreement and a revered act. Establishing strong families was the practice of all the prophets from Adam to Prophet Muhammad, peace be to all. From these families emerged different nations and tribes with diverse features, opinions, ideas, norms, etc. Thus, this requires attaining an accurate knowledge from the sources of Islam to establish a stable family.

Therefore, DYC is pleased to cordially invite you to an event that is packed with vast knowledge to give you a clear picture of what marriage in Islam is. Our main topics will create a better understanding in the Steps Towards Marriage, What makes Marriage an easy or difficult one, the Pleasures of Marriage, and many more to create a debate that you will never forget!
